Introduction

Welcome to the Cheshire Cricket Board Player Pathway, an accessible and player-centred development programme that aims to instil a lifelong love of the game and support every child to reach their full cricketing potential.

In this document you will find further information about the opportunities for boys (see separate document for girls) and how our Player Pathway supports the development of recreational cricket throughout the county.

Our staff and volunteers embrace cricket's Core Values (see below) in everything we do. These values are embedded into our Player Pathway and help guide how we work, play and make decisions on and off the field.

Pathway Overview

The highest achieving county players can progress beyond the CCB Pathway.

Children may join or bypass different stages of the pathway based on their stage of development. Due to children developing at different rates during maturation the diagram is an example of a pathway to professional cricket.

Cheshire Cricket Board run a comprehensive year-round coaching programme for children aged U9- U18

Talent Identification & Player Selection

Cheshire Cricket has an excellent record of developing talented individuals and teams, nurturing players who have gone on to achieve success at every level of the game. We're proud of our accessible pathway, ensuring every child has the opportunity to reach their full potential regardless of any barriers they may find in their way. With a wide talent pool and multiple entry points into the pathway, we provide opportunities for players of all abilities to develop and progress within a supportive and inclusive environment.

Eligibility

We adhere to ECB guidance on player eligibility, which requires that each player meets at least one of the following criteria: they must reside in, be educated in, or play for a club within Cheshire. We are committed to maintaining an open and inclusive pathway whilst ensuring that our representative teams reflect the diversity and strength of our local communities and club network.

Development Framework

Children are assessed against our Development Framework by our team of experienced coaches. We take a holistic approach to coaching each child, observing their technical, tactical, mental and physical attributes.

Relative Age Effect & Physical Attributes

Coaches are aware of the relative age effect and will acknowledge which quarter of the year a child was born. We take this into consideration with all selections and make decisions based on future potential at that point in time. We also observe a child's physical data and general movement patterns. Players are monitored by CCB's Strength & Conditioning lead periodically.

Many Eyes – Many Times

Cheshire Cricket run a 30-week coaching programme staffed by experienced full-time level 2,3 & 4 coaches. We value each others' views and feedback on children we coach and decisions are made from observations made over a long period of time rather than a one-off viewing.

Work Ethic & Attitude

We are looking for children with a growth mindset and a willingness to learn and improve. We also take into consideration a child's attitude towards their own game, peers and coaches.

Match Play

We observe players during our district and representative fixtures during the summer. For the older juniors we will observe performances within senior club cricket.

Professional Cricketers from our Player Pathway

George Balderson

England U19s,
Lancashire

"My time with Cheshire was not only the most enjoyable of my childhood but also fundamental in helping me to become the cricketer I am today. The lessons I learnt about teamwork, leadership and all-round cricketing skills at a young age were essential. I can only say thank you to the coaches who helped me at a young age to get to where I am today"

Chris Edwards

England LD Captain
CCB Coach

"Cheshire Cricket helped shape my game to become the player I am today. I learnt to believe in myself and that handwork, effort and determination pays off. Enjoy your cricket and embrace everything you learn on the courses"

Sophie Ecclestone

England, Lancashire,
Manchester Originals

"Playing club and county cricket in Cheshire played a huge part in my development and really sparked my love for the game"

Safeguarding

Cheshire Cricket Board is committed to ensuring that all children, young people (aged under 18) and adults who may be at risk involved with cricket in Cheshire have a safe, welcoming and positive experience. We comply with **England Cricket Board's (ECB) Safe Hands Policy** which promotes good practice, helps raise awareness and ensures people know what to do if they have any concerns about children or the behaviour of adults in cricket.
